

Apache Forrest: Eclipse Plugin

Table of contents

- 1 Eclipse Plugin.....2
- 2 Installation notes.....2

1. Eclipse Plugin

The Forrest plugin for Eclipse is new and under rapid development. See the

Note:

You need to separately download the `activation.jar` (its licensing means that we cannot distribute it).

Get it from <http://java.sun.com/products/javabeans/glasgow/jaf.html> - Download the JAF 1.0.2 ZIP, extract `activation.jar`, and copy it to `tools/eclipse/plugins/org.apache.forrest.eclipse.servletEngine/lib/` directory.

2. Installation notes

To get you started while the documentation is being developed, see this forrest-dev mail thread: [\[eclipse\] How to install?](#).
