### 1. Version 0.1 (unreleased)

- Added link back to index page and provide some text for links to next image and larger/smaller image. (RDG)
- Added some sample pictures. (RDG)
- Added basic documentation. (RDG)
- Initial plugin code. (RDG) Thanks to Jorg Werner. Fixes [FOR-387](#).
- Renamed to bring into line with naming conventions. (RDG)
- Changed method of identifying pictures, it no longer users request parameters, therefore it will work in a statically generated site as well as in a webapp. (RDG)
