1. Version 0.1 (unreleased)

- Added better sitemap match using regexp to deal with sub-directories too. (DC)
- Initial plugin code. (RDG)
- Move ToDo and Changes pipelines to this plugin, from core. (RDG)
- Use relative location of images directory. (DC)
- Replace use of document() function in changes2rss.xml with sitemap aggregation. (DC)
- Use the "title" attribute of "changes" and "todo" tags if it exists, otherwise use the hard-coded values. (DC) Thanks to Cyriaque Dupoirieux. Fixes [FOR-455](#).
