## 1. Important Notices

Before posting a question or problem to any mailing list, please first look at the following resources:

- [Forrest FAQs](#) (site:faq)
- [Forrest documentation](#) (index.html)
- [Cocoon Links](http://cocoon.apache.org/link/) (http://cocoon.apache.org/link/) for pointers to general XML and XSL and Java related resources. Please do not ask such questions here unless they are related to Forrest.
- Mailing list archives - a veritable goldmine of Forrest-specific information.
- Contribution [notes and tips](#) (contrib.html#tips) .

If you are posting about a problem that you are having, it will aid in finding a speedy resolution if you provide full configuration details, including the version number of Forrest, your operating system, JDK version, and servlet engine, and full details of any errors encountered including full error messages and stack traces.

### Note:

Please use our Jira [issue tracker](http://issues.cocoondev.org/secure/BrowseProject.jspa?id=10000) (http://issues.cocoondev.org/secure/BrowseProject.jspa?id=10000) to submit attachments, rather than the mailing list. Create a new issue, if necessary.
