Note:

These are the open issues for our upcoming release listed in our [issue tracking system](http://issues.cocoondev.org/secure/BrowseProject.jspa?id=10000) (<http://issues.cocoondev.org/secure/BrowseProject.jspa?id=10000>) (see [all](#) (<http://issues.cocoondev.org/secure/IssueNavigator.jspa?pid=10000&resolutionIds=-1&tempMax=1000&reset=true>) open issues). The listing below is regenerated on each Forrest run.

1. [FOR-286] Forrest cannot run from directories with spaces in the path

<http://issues.cocoondev.org//browse/FOR-286>

When running forrest from a directory with spaces in the path (typical is c:\Program Files\Forrest) it won't work. Something wrong with the bat scripts...

2. [FOR-285] Make the html export+rendering reasonably stable

<http://issues.cocoondev.org//browse/FOR-285>

We need to get this done for the Incubator.

3. [FOR-284] No pipeline matched request: samples/ext:dtd-docs

<http://issues.cocoondev.org//browse/FOR-284>

Doing 'forrest site' on the seed we get:

 X [0] samples/ext:dtd-docs

 &BROKEN: No pipeline matched request: samples/ext:dtd-docs

4. [FOR-281] Upgrade the Using Forrest document to reflect new project sitemap method

<http://issues.cocoondev.org//browse/FOR-281>

In the docs/your-project.xml document, the "Download example" needs to be enhanced.

5. [FOR-277] investiagte use of forrest-0.6-dev as webapp with Tomcat 5

<http://issues.cocoondev.org//browse/FOR-277>

Some people report having troubles running Forrest as a webapp under Tomcat. Needs investigation before 0.6 release.

 This is the background email to forrest-users:

 http://mail-archives.a

Open issues for the upcoming release

 Forrest 0.6 Interaction with Tomcat 5.0.27
 Wed, 4 Aug 2004
10:18:34 -0500

6. [FOR-245] changing skins and going out in the public view

<http://issues.cocoondev.org/browse/FOR-245>

It almost time to change the skin on our public Forrest website.

**7. [FOR-224] All documentation needs review, to be up-to-date with
copyless procedure**

<http://issues.cocoondev.org/browse/FOR-224>

Since the change to copyless there is stacks of documentation that needs to be modified.

8. [FOR-172] Finish off copyless behaviour

<http://issues.cocoondev.org/browse/FOR-172>

The "true" copyless behaviour is not quite fully implemented.
