

Forrest DTD documentation

We use the [NekoDTD](#) tool packaged as a Cocoon Generator to generate automatically some hyperlinked DTD references. Note that these references do not reflect the modularity of our DTDs, they are primarily "user-oriented help" documentation.

The actual DTDs are located in the Forrest distribution at
`src/core/context/resources/schema/`

Generated documentation for Apache Forrest document-v13 ...

- [document-v13](#)
- [howto-v13](#)
- [faq-v13](#)

Generated documentation for Apache Forrest document-v20 ...

- [document-v20](#)
- [howto-v20](#)
- [faq-v20](#)
