2 ForrestTuesday get together.....	2
3 Ongoing major development topics.....	2

1. Overview

This is a collection of notes to assist with certain project planning and to co-ordinate development. When the development work is complete, then these docs can be removed because all of the content will have moved into the documentation proper.

Refer to the Issue Tracker for further specific information. Try to keep these notes, and the issues, as concise as possible.

2. Forrest Tuesday get together

The next Forrest Tuesday is on 6 September 2005. The main topic is "Internal structure is XHTML2".

3. Ongoing major development topics

Some current topics in no particular order.

- Internal structure is XHTML2
- Integrate the "views" facility with the core and rename its components.
- Forrest profiling, memory consumption, sitemap efficiency.
- Configuration system.
- Define strategy for releases.
- Improve integration of Lenya and Forrest.
