#### Note:

These are the issues for this release that are scheduled in our <u>issue tracking system</u> (see <u>all</u> open issues). The listing below is regenerated on each Forrest run.

#### 1. [FOR-500] ensure that all supporting libraries have a corresponding license

http://issues.cocoondev.org//browse/FOR-500

Some old libraries and some of the recently updated libraries do not have an updated license file.

#### 2. [FOR-470] docs and fresh-site samples for "raw content" need update

http://issues.cocoondev.org//browse/FOR-470

The documentation about "raw content" describes the method used prior to version 0.7 <br/> so we need to update docs and the fresh-site samples. <br/> faq.html and upgrading\_07.html and elsewhere. <br/> &nbsp;

### 3. [FOR-465] Logging Error: Writing event to closed stream.

http://issues.cocoondev.org//browse/FOR-465

After doing 'forrest' there is a strange error message at the end of Cocoon's run: <br/> &quot;Logging Error: Writing event to closed stream.&quot; This happens on every different project that i have tried.

#### 4. [FOR-454] add content about major changes for this release

http://issues.cocoondev.org//browse/FOR-454

We need notes about the major changes for this release: <br/>br> upgrading\_07.xml <br/>snnouncement-0.7.txt <br/>fr> RELEASE-NOTES-0.7.txt

#### 5. [FOR-391] website docs/site split

http://issues.cocoondev.org//browse/FOR-391

Split our website into a standalone documentation site (which will be maintained per version/branch) and the main version-independent site.

# 6. [FOR-241] character entities (e.g. ampersand) are expanded again for href or src attributes

http://issues.cocoondev.org//browse/FOR-241

If I have a url like this inside the XML source: <br> <a

href="http://sourceforge.net/sflogo.php?group\_id=comics-grabber&type=1">http://sourceforge.net/sflogo.php?g<br/><br>><br> validate-xdocs fails because it wants the literal & to be typed out as <br/>& amp; amp;

instead. So I correct it to become: <br/> <br/> <a href="http://gourgeforgo.not/sflogo.nbn?group.id">http://gourgeforgo.not/sflogo.nbn?group.id</a>
