Forrest DTD documentation

Table of contents

1 Overview	2
2 The generated documentation.	

1. Overview

We use the <u>NekoDTD</u> tool packaged as a Cocoon Generator to automatically generate some hyperlinked DTD reference documentation. Note that these references do not reflect the modularity of our DTDs, they are primarily "user-oriented help" documentation.

The actual DTDs are located in the Forrest distribution at main/webapp/resources/schema/

2. The generated documentation

Generated documentation for Apache Forrest document-v20 ...

- <u>document-v20</u>
- howto-v20
- <u>faq-v20</u>

Generated documentation for Apache Forrest document-v13 ...

- document-v13
- howto-v13
- <u>faq-v13</u>
