Open issues for the upcoming release

Table of contents

Note:

These are the open issues for our upcoming release listed in our <u>issue tracking system</u>
(http://issues.cocoondev.org/secure/BrowseProject.jspa?id=10000) (see <u>all</u>
(http://issues.cocoondev.org/secure/IssueNavigator.jspa?pid=10000&resolutionIds=-1&tempMax=1000&reset=true) open
issues). The listing below is regenerated on each Forrest run.

1. [FOR-277] investiagte use of forrest-0.6-dev as webapp with Tomcat 5

<u>http://issues.cocoondev.org//browse/FOR-277</u>

Some people report having troubles running Forrest as a webapp under Tomcat. Needs
investigation before 0.6 release.

 This is the background email to forrest-users:

  <a
href="http://mail-archives.apache.org/eyebrowse/ReadMsg?listId=260&msgNo=282">http://mail-archives.a

  Forrest 0.6 Interaction with Tomcat 5.0.27
  Wed, 4 Aug 2004
10:18:34 -0500

2. [FOR-267] spaces in project path lead to error on Windows

<u>http://issues.cocoondev.org//browse/FOR-267</u>

With 'forrest run' if there are spaces in the pathname then failure.

 This is for
Forrest-r37116, with r37072 it still worked.
 'forrest run' terminates with an error saying:

 run_default_jetty: <br> java.lang.NoClassDefFoundError:
path/after/space/myproject -Dforrest/home=H:\forrest\src\core
 Exception in thread
"main"

 removing the space from the path <br> d:/the
path/after/space/myproject <br> so that it looks like <br> d:/the_path/after/space/myproject

 runs fine

3. [FOR-245] changing skins and going out in the public view

<u>http://issues.cocoondev.org//browse/FOR-245</u>

It almost time to change the skin on our public Forrest website.

4. [FOR-224] All documentation needs review, to be up-to-date with copyless procedure

<u>http://issues.cocoondev.org//browse/FOR-224</u>

Since the change to copyless there is stacks of documentation that needs to be modified.
